

Dear OLL Families,

The second grade class has decided to sell some of Ms. P's Garden Patch seeds as well as other varieties that she loves. The second graders will be designing the seed labels, and packaging the seeds. Throughout the school year the class has used the garden to reconnect students with the natural world and the true source of their food, as well as teach them valuable gardening and agriculture concepts and skills that integrate with several subjects, such as math, science, art, health and physical education, and social studies, as well as several educational goals, including personal and social responsibility.

The varieties are Heirloom, Untreated, Non-Hybrid, Non- GMO seeds. These seeds will make a wonderful addition to your 2016 gardens.

All funds raised from the seed sale will help our School in Nicaragua, Pablo Antonio Cuadra Primary School and a local YMCA daycare in Redmond which provides childcare for low income and homeless families while parents work and take classes. Giving these kids the opportunity to grow like we have grown over the 2015-2016 school year.

Attached is an order form along with a description of each seed variety that the class is selling. Please look at the form and feel free to pass the form on to friends and family that also enjoy gardening. Please return it to Ms. P's Garden Seed Project By February 19, 2016. All orders will be filled by March 15, 2016 just in time for your spring plantings.

Thank you,

Brayden
